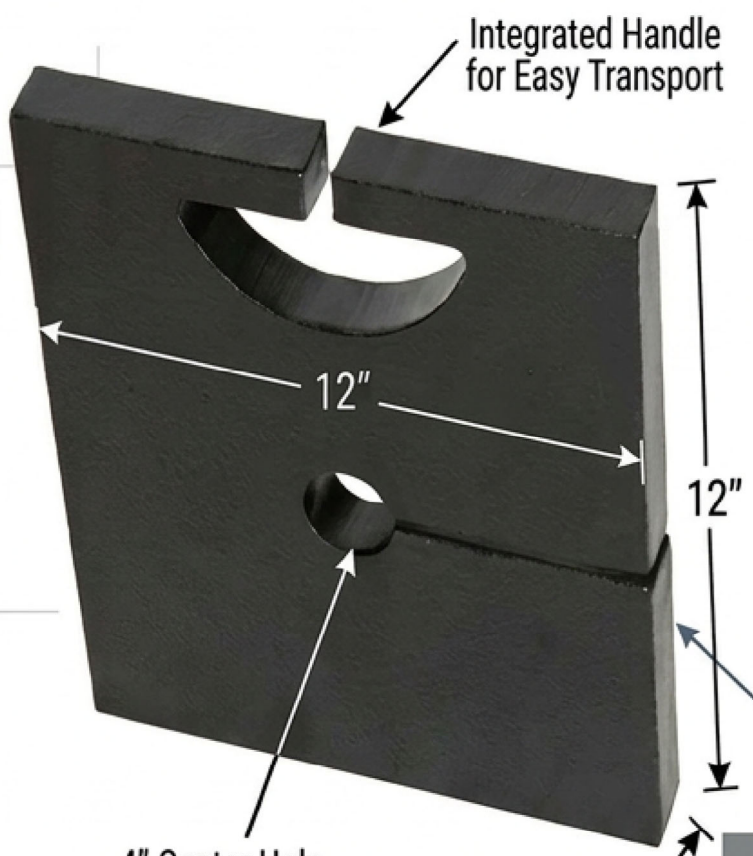
Specification Sheet:
SWITCHRAIL COUNTERWEIGHT (CW50)

SwitchRail®
Modular Safety Rail System

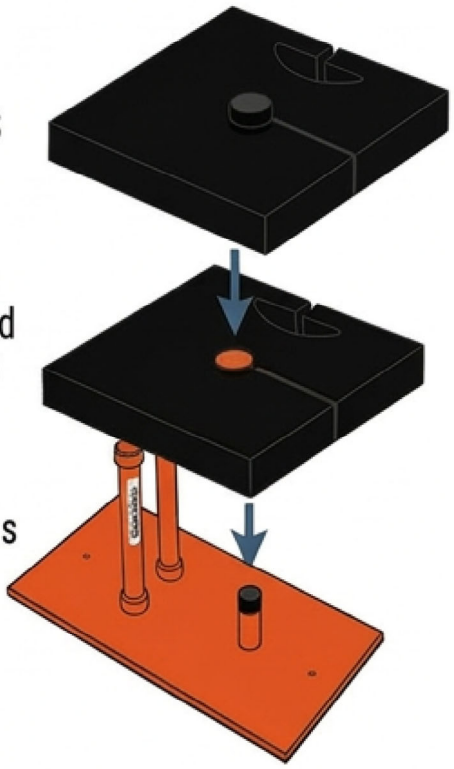


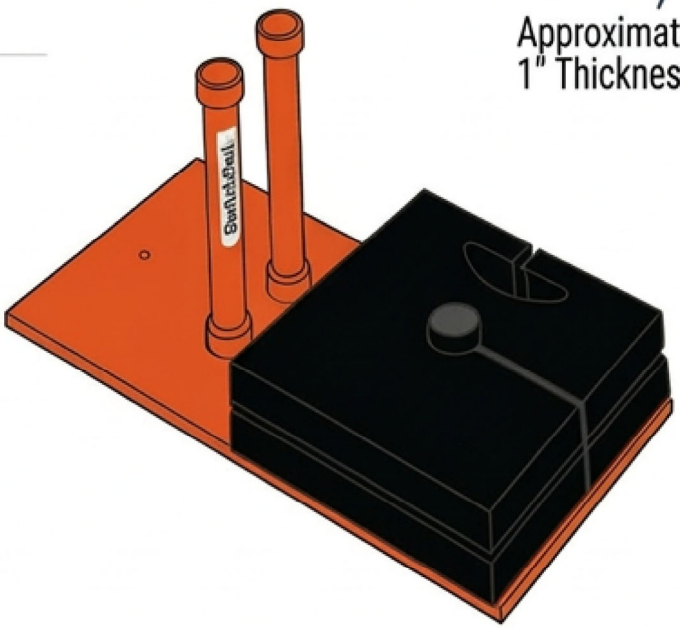
Plates are **USED IN PAIRS** (minimum 2 2 per base)

Stack multiple pairs as required for application

Fits standard base plate stems (capped stem shown)

12"x12" Overall Dimensions





FEATURE HIGHLIGHTS

- Used in pairs (minimum 2 plates) on each base plate requiring counterweight.
- Integrated handle cutout for safer manual handling.
- Fits securely over the standard 4″ length stem of base plates.
- Provides essential stability for the safety rail system.

DIMENSIONS AND WEIGHT

- Approximate Size: 12″ (W) x 12″ (L) x 1″ thick (thickness may vary slightly based on steel gauge).
- Weight: 50.0 lbs per plate (22.7 kg).

MATERIAL

- Material: Solid plate steel construction.
- Finish: Available in powder coating for corrosion resistant.
